

FNN Provincial Network Workshops

by [Pan Sopheap](#) on Wednesday, February 9, 2011 at 5:22pm

The Farmer and nature Net (FNN) - *through financial supports from the People Action for Change (PAC) and EED* - had successfully organized 11 provincial network workshops in 11 provinces in Cambodia from February 3- 8. 2011. In good cooperation with CEDAC staff and FNN local leaders, the workshops were divided into two groups every day except on February 3 that all of us joined the firstly opening workshop together. Main purposes of the workshops were to present the annual activity and achievement of FNN in 2010 and to extend and discuss on a draft of the Ministry of Interior on Associations and NGO law and to collect real opinions and recommendations from FNN local leaders and members with regard the draft law. Among the 11 provinces were included Kampot, Takeo, Kampong Speu, Kampong Chhnang, Kampong Cham, Pusat, Battambang, Kampong Thom, Prey Veng, Kandal, and Svay Rieng. In total, there were about 450 local leaders of the FNN (whom about 20% were female) had attended the 11 workshops. Mr. Uon Sophal (FNN president), Mr. Chea Sopheak (FNN vice president), Mr. Pan Sopheap (FNN Executive Director), Ms. Kong Sokchhoin (FNN Project Coordinator), Mr. Sean Buntha (FNN project officer), Mr. Tath Sok (CEDAC Program Coordinator), and Ms. Suon Tien (PAC representative) were main facilitators of the 11 workshops. During the workshops district governors and members of parliament were also invited. Unfortunately, because of time constraint - too short- we were not able to manage our invitation on time to invite members of parliament. However, several district governors and deputy district governors turned out to preside over the workshops to deliver opening and closing speeches. All of them strongly supported the workshops and fully cooperated with the FNN. The workshops were success because of good cooperation with financial supporters, CEDAC and particularly the district authorities. **Uploaded by NOY Kimhong**
